

# Qualification Criteria

## for Diagnose.me Specialists

Diagnose.me aims to facilitate high-quality medical opinions. Second opinions provided by Diagnose.me specialists must meet the highest quality standards.

As part of Diagnose.me's international specialists' team, medical professionals are recognized for their international reputation and ability to adhere to high-quality standards. [The selection and admission process of our future specialists is overseen by the Diagnose.me Medical Advisory Board.](#)

The selection criteria are outlined below:
